Course/Section	BSIT - 4102
Company Name	Technical Vocational Learning Center
Company Address	Blk 9 lot 13 La Forteza, Camarin
Date	March 12, 2026
Company Supervisor	Mr. Orlando Cuartero

Daily Log and Narrative

Time	Activity	Tools/Software Used	Narrative / Description of Work Done
7:00 AM – 4:00 PM	Coding	Laptop & WPS office	Designed company's web LMS.

Daily Insights and Learning

During our duty, my co-OJT and I collaborated to code and build the company's website design using our laptops and VS Code. We worked together to translate design concepts into functional web pages, ensuring the layout was both responsive and aligned with the company's standards. This hands-on experience not only enhanced my technical programming skills and familiarity with modern code editors, but it also taught me the immense value of teamwork, clear communication, and collective problem-solving in a professional development environment.

7:00 AM – 4:00 PM	Coding	Laptop & VS code	Designed company's web LMS

Daily Insights and Learning

Building on our progress from the previous day, my OJT-mates and I continued collaborating to refine and code the company's web design using VS Code. We focused on streamlining our workflow, debugging layout issues, and ensuring the user interface was clean and responsive. Working side-by-side for a second day allowed us to establish a smoother development rhythm, deepening my technical coding skills and reinforcing how iterative teamwork and consistent communication drive a project forward.

Daily Log and Narrative

Time	Activity	Tools/Software Used	Narrative / Description of Work Done
7:00 AM – 4:00 PM	Designing company floorplan	Laptop & canva	Made and edited floorplan of the company

Daily Insights and Learning

During our duty, my co-intern and I shifted our focus to visual layout creation, collaborating on Canva to design the company's floor plan. Using the platform's design tools, we mapped out the spatial arrangements and translated technical requirements into a clear, visually cohesive digital blueprint. This task allowed me to expand my creative skill set beyond coding, while highlighting the importance of adaptability, precision, and cross-functional design in professional project planning.

Course/Section	BSIT – 4102
Company Name	Technical Vocational Learning Center
Company Address	Blk 9 Lot 13 Laforteza, Camarin
Date	April 15, 2026
Company Supervisor	Mr. Orlando Cuartero

Daily Log and Narrative

Time	Activity	Tools/Software Used	Narrative / Description of Work Done
7:00 AM – 4:00 PM	Redesigning company floorplan	Laptop & Canva	Redesigning company floorplan

Daily Insights and Learning

Expanding our design responsibilities upstairs, my OJT-mates and I spent the day creating a brand-new floor plan design for the newly opened upper floor. We mapped out spatial layouts, designated functional areas, and planned the optimal placement for future workstations and equipment. This creative layout project enhanced my spatial planning skills and showed me how thoughtful architectural design directly maximizes the utility of a new workspace.

Time	Activity	Tools/Software Used	Narrative / Description of Work Done
7:00 AM – 4:00 PM	Teaching	Hands-on	Teaching students about systems.

Daily Insights and Learning

Stepping back into our teaching role, my OJT-mates and I met with the students once again to conduct a class about essential business software, focusing specifically on records management and archiving systems. We broke down how organizations systematically store, secure, and retrieve digital and physical documents to maintain smooth operations. This rewarding teaching experience deepened my own appreciation for data organization while enhancing my ability to explain complex technical concepts clearly to eager learners.

7:00 AM – 4:00 PM	Reorganizing	Hands-on	Organized students things

Daily Insights and Learning

Collaborating closely with the HR interns, my OJT-mates and I spent the day sorting and organizing the remaining student materials—such as papers, ballpens, and learning kits—left behind by the current batch. We systematically inventoried, repacked, and prepared these supplies so they can be neatly handed over and reused by the upcoming batch of students. This collaborative logistical task highlighted the importance of resourcefulness and efficient transition planning, ensuring that materials are properly conserved and ready to support the next wave of learners.

Daily Insights and Learning

Stepping into a creative phase for our teaching engagement, my OJT-mates and I focused on designing engaging PowerPoint presentations to effectively guide the students. We carefully structured each slide with clear visuals, practical examples, and concise bullet points to make complex software concepts much easier to digest. This collaborative design process not only sharpened our visual communication skills but also ensured our lessons would be both captivating and accessible for every learner.

7:00 AM – 4:00 PM	Pressing	Hands-on	Pressing company logo

Daily Insights and Learning

Shifting gears to support the company's internal operations, my OJT-mates and I spent the day pressing official company logos onto essential business documents. We carefully aligned and applied the branding emblems to ensure every physical file and record maintained a professional, uniform appearance. This hands-on task gave us a deeper appreciation for brand consistency and the meticulous attention to detail required in daily corporate workflows.

Daily Insights and Learning

Transitioning into a creative marketing role, my OJT-mates and I dedicated the day to designing the company's official corporate profile. We carefully curated the layout, imagery, and text to highlight the organization's core values, services, and achievements in a visually compelling way. This collaborative project significantly strengthened our graphic design skills and taught us how to effectively communicate a brand's story to prospective clients.

Daily Insights and Learning

Returning to our hands-on administrative tasks, my OJT-mates and I spent the day pressing official company logos onto more of the organization's documents. We maintained a steady and precise workflow to ensure every single record and file proudly and correctly displayed the company branding. This repetitive yet vital task reinforced our commitment to detail and showed us how even routine operations contribute to a unified corporate identity.

Daily Insights and Learning

Transitioning into software development, my OJT-mates and I focused on coding the backend infrastructure for the company's Learning Management System (LMS). We worked on building robust server-side logic and database structures to ensure smooth course management, user tracking, and seamless data flow. This technical challenge significantly sharpened our programming skills and gave us practical experience in developing scalable educational technology tools.

Daily Insights and Learning

Wrapping up our OJT journey on a high note, my OJT-mates and I spent our final day redesigning the floor plan for the upper floor of the office. We collaborated on optimizing the spatial layout to improve workflow efficiency, movement flow, and overall workspace comfort. This final hands-on project was a rewarding way to conclude our internship, blending creative problem-solving with a lasting, tangible contribution to our workplace.
